**exposé**  
Data Exposed

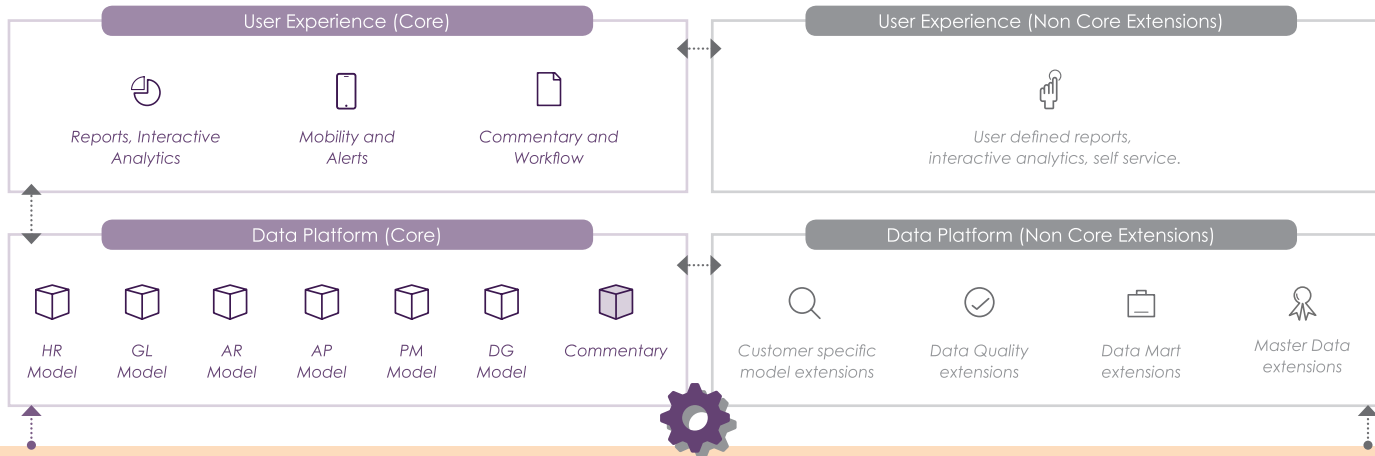

**Synergy Reporting Solution**

Providing efficiencies and  
business insights with the  
Synergy Solution by exposé.

# What is the Synergy Solution?

The Synergy Solution by exposé assists organisations with accessing their people, finance and operational data at any time, in any place and on any device in order to make informed business decisions without the need for static reports and reliance on IT.

● Customer source systems and is not part of the Synergy solution  
● Core part of the Synergy solution and is included in our pricing structure.  
● Non-core extension to the core which we can add (price will be dependent on elements added)

## Why your business needs the Synergy Solution.

- Static and slow decision making
- Too much data, not enough insight
- No transparency of costs, budgets etc.
- Data quality issues
- Lack of accountability within the business
- Process Inefficiencies
- It takes weeks to get a report generated
- Lack of integration amongst core systems
- Lack of, or inconsistently applied governance
- No 'single source of the truth'
- High operational costs
- Poor visibility of your team, department and/or business
- High reliance on it

## What's Included?

### Modules

- General Ledger
- Accounts Payable
- Accounts Receivable
- Fixed Assets
